LOOKED INTO FACE OF TWO REVOLVERS

A Bold Hold-Up by Two Men on Top of a Car.

(By Associated Press.)

CHICAGO, Nov. 14.—Held up at 15 miles an hour, is the title of a melodrama enacted when J. B. McElroy, a freight conductor, was held up by two robbers on the top of a car. Standing with hands uplifted, the force of the wind almost causing him to lose his balance, McElroy looked into the barrels of two revolvers pointed at his head by the robbers. When he offered no resistance one of the men lowered his weapon and searched the victim. He was rewarded with some small change and a gold watch. Then, while one of the highwaymen descended from the iron ladder and leaped to the ground his companion stood guard over the conductor. Holding a revolver pointed at McElroy and threatening to shoot him if he moved, the second one lowered himself from sight and disappeared. Lieutenant Gorman of the Brighton Park Police Station, was notified of the robbery.

McElroy lives at 2181 Thirty-eighth Place. The Chicago and Alton freight train, of which he was in charge, was due to arrive at 6:30 o'clock last night. For some reason, however, it was delayed at Oakley Avenue. McElroy clambered to the top of a centre car to watch for signals. Train had just passed the crossing, when two men leaped upon a rear car of the moving train and were soon on top of the cars. In the confusion which prevailed they came

upon McElroy before he saw them, his first intimation of their presence being the order to hold up his hands. Turning about he faced the two men, but the sight of their revolvers prevented him from offering any resistance.

LUNENBURG RAILROAD

It Will Aid in Development of a County Not Now Reached.

(Special Dispatch to The Times.)

CHASE CITY, VA., Nov. 14.—A substantial proposition has been made by citizens of Lunenburg to survey and locate the line of the Blackstone and Chase City Railroad by the courthouse of that county. The plan is feasible and if adopted will be a great factor in developing the resources and adding to the convenience of the people of a county now practically deprived of railroad facilities.

For the months of August, September and October the sales of tobacco at this market amounted to 1,200,000 pounds. This is far in excess of any previous year for the same months.

The extension of the time for pay of pensioners by the Legislature will be a boon to many old Confederate veterans who failed to get in their applications by the 1st of September under the present pension act.

Police News.

What is Going on at Headquarters.

Mr. Madison Corey, son of the Chief of Police of Brookline, Mass., is in the city. He called at the office of the Chief yesterday afternoon, and met the friends of his father. Detective Gibson took him driving about the city.

Mr. Corey is business manager of the "King Dodo" Company.

Detective Gibson has recovered a Monarch bicycle believed to have been stolen. He saw a negro with it and when the negro saw him he ran away and left the wheel, which is now at police headquarters, where it may be identified.

For two days the detectives had been looking for a stolen bicycle, when as Detective Gibson was sitting in the Third Station talking about it Thursday a small negro entered with the bicycle. He said he found it in the rear of a house on West Clay Street. The wheel was turned over to the owner.

SHORT SESSION OF LEGISLATURE

Some Important Bills Are Presented.

MR. WEST'S LIQUOR MEASURE

He Would Place Heavy Restrictions on the Traffic—Bill of Senator Harman in Interest of Organized Labor, Day's Session in Detail.

Beyond the introduction of some important bills, the Legislature did but little of interest at its brief session yesterday.

Mr. West, of Louisa, offered in the House a sweeping liquor measure, a fuller account of which is to be found elsewhere in The Times.

In the Senate, Mr. Harman (Rep.), of Tazewell, presented a bill designed to prevent the interference of employees with the organization of labor unions and to make the offense a misdemeanor punishable by fine and imprisonment.

Senator Byars presented a measure authorizing the appointment of court stenographers, and there were several local bills offered in both branches.

Senator C. Harding Walker, of Northumberland, was in his seat for the first time at the extra session and was warmly greeted by his friends and colleagues. He took the oath to support the new Constitution, having been absent on account of sickness when it was adopted, and to his colleagues. Both bodies will meet at noon to-day.

Day in the Senate.

The Senate session was briefest so far of the adjourned session. It lasted ten minutes. During this short period was characterized by the offering of one of the most interesting bills that has yet come to the attention of the Senate in this session. Mr. J. N. Harman was the sponsor, and it provides protection for employees who want to join labor organizations.

Its provisions are: "That it shall be unlawful for any individual or member of any firm, or agent, officer or employee of any company or corporation to prevent or attempt to prevent employees from joining, joining and any such individual, member, agent, officer or employee who coerces or attempts to coerce employees by discharging or threatening to discharge from their employment or the employment of any firm, company or corporation because of their connection with such lawful labor organization shall be guilty of a misdemeanor, and upon conviction shall be fined in any sum not exceeding \$100, or be imprisoned for not more than six months, or both, in the discretion of the jury."

Rev. J. Witherston, D. D., pastor of the Grace-Street Presbyterian Church, offered the opening prayer in the Senate at noon.

The attendance of members was better than at any time during the present session. Senator George B. Kezwell was in his seat for the first time since the adjourned session began. He was warmly welcomed by his colleagues. Senator McIlwaine was still absent.

Few spectators were present. Major W. H. F. A. S. Brine, Mr. Freeman and two ladies were on the floor.

The reading of the journal was dispensed with.

The following bills were offered: To compensate to heirs of J. J. Moran for services rendered by him as agent of the State of Virginia in prosecuting the claim of the State for the recovery of the direct tax levied by the Federal Government under act of Congress approved August 5th, 1861, and acts amendatory thereof. Referred to the Committee on Finance and Banks.

By Mr. J. P. Harman: To protect employees and guarantee their right to be employed by labor organizations. Referred to the Committee on General Laws.

By Mr. J. C. Byers: To empower Judges of Circuit and Corporation Courts to employ court stenographers in certain cases and to provide for their compensation. Referred to Committee on Courts of Justice.

Secretary Dutton, at the request of Chairman Wickham, announced that the Committee on Finance and Banks would meet immediately after the session of the Senate.

House Proceedings.

The House was called to order at noon by Speaker Ryan, and prayer was offered by Rev. Dr. R. P. Kerr, of the Presbyterian Church.

The reading of the journal of the previous day's proceedings was dispensed with on motion of Mr. Blain of Portsmouth, and the speaker proceeded to read a message from the Senate, stating that that body had passed a number of bills.

Mr. Seabell moved that when the House adjourn it be to meet at noon on Monday, but this was lost by a vote of 35 to 20, and at 12:30 P. M. the House adjourned until noon to-morrow.

PRESENTED AND REFERRED.

By Mr. Heermans: To provide for printing 20,000 copies of the Constitution for distribution.

By Mr. Lowry: To pay the election officers of Stafford and King George counties.

By Mr. Lawson: For the relief of county treasurers who may have lost school warrants.

By Mr. West: To amend the existing statutes in relation to the sale of intoxicating liquors.

of animal life from all parts of the world. One of the most interesting features of the carnival is the exhibition given by Captain Louis Sorcho's deep sea diver. A diver in full armor descends into a glass tank in full view of the audience, and explains to the minutest details a diver's submergence work. Captain Sorcho is a remarkable character. He wears on his breast not less than a dozen medals given him as a reward for his services under the sea. One of them is a gold medal presented to him by Captain Sigbee, commander of the fated battleship Maine, which was blown up in Havana harbor, as a reward for his services on the wrecked Maine. Captain Sorcho rescued a number of bodies from the wreck of the Maine.

There are other attractions, from Hannah, the wild girl to Bobo, who eats alive. The old plantation is the place if you want to hear all of the good con songs and see the best negro dancing, cake walk, buck dancing and others that this race can execute better than the white man. Bobo is a marvel. He eats snakes before your eyes. Hannah, the Australian wild girl, was captured about eleven years ago by a party of sailors. She belongs to the race known as the bushmen. Her head is no larger than a coconut. She has no forehead at all, her head sloping back from the eyes. She understands anything in the English language just as a dog or horse would. She never sits down, even when traveling. The little wonder lives on vegetables and fruits. She is a favorite with the fourth of two ordinary men and can run like a deer. Besides these numerous attractions there are several free shows, chief among which is Professor McCombe, who dives from a tower ninety feet high to a tank of water only four and a half feet deep.

PRISCILLA

Comic Opera by Local Talent—Chorus of Seventy Voices—Will Trained C. St.

On December 11th the McGill Catholic Union and the friends will produce the comic opera "Priscilla" at the Academy Theatre. The chorus of seventy voices are diligently training under the direction of Professors Stein and Rees. The cast is being trained by Professor Daniels, who has been engaged as stage director. Mr. Daniels has had a wide and varied experience as an actor and stage director and teacher of elocution, etc., and is well equipped to stage the opera. He is much pleased with the progress made and is sparing no effort to make the performance strictly professional.

The character of Priscilla, the splinter Puritan maiden, who, as usual, had many good chances, will be sung by Miss Annie Newheiser. This is a comedy part and will be well acted by Miss Newheiser, who is naturally suited to comedy.

Prudence, the wise and staid maiden, who abhors any departure from the strict Puritanic code of etiquette, will be presented by Miss Agnes Sittler.

John Alden, the hero of the plot, will be sung by Mr. C. A. Canepa. He possesses a sweet, well-toned tenor and is widely known in musical circles in Richmond. He is a member of the Wednesday Club, the German-American Choral Association and the leading tenor of St. Peter's Cathedral choir.

FOR PALMER ACADEMY

Gift of a New York Man for a School in Rockbridge County.

(Special Dispatch to The Times.) LEXINGTON, VA., November 14.—Hon. Henry St. George Tucker has secured a gift of \$10,000 from Mr. Robert Fulton Cutler, of New York, for the benefit of the Palmer Academy, to be established in Burdett District, Rockbridge county. The school enterprise has at its head prominent residents of the community, among them being Mr. J. S. Smith, former county superintendent of schools of Rockbridge. The school is to be an academy of high standard.

An option has been secured by Councilman E. A. Quisenberry on a farm near Lexington, which has a bold spring on it, for the purpose of increasing the town water supply. It is estimated that the spring can be connected with the town water system at comparatively small cost, and by so doing the supply will be more than doubled.

Revival services are in progress at Trinity Methodist Church, conducted by the pastor, Rev. J. H. Light, who is assisted by Rev. Robert E. Hutton. Considerable interest is manifested, and a number of conversions are reported.

The Columbia football team, of Washington, D. C., will play two games in Lexington this season. Saturday afternoon they will contest with Washington and Lee University and Monday they will try their luck with the Virginia Military Institute. Both the local teams have pushed themselves together since the hard battle Tuesday, and are now ready for other games.

Some Irish potatoes of the "red and white elephant" variety are on exhibition at one of the stores here. One dozen fill a half bushel measure heaping full, and tip the scales at 23 1/2 pounds. The potatoes were raised near Fairfax county, and are a fair sample of the crop.

Mrs. Herbert A. Claiborne, who has been visiting her brother, Major Henry Cabell, of the United States army, at Detroit, was registered yesterday at the Hotel Rennett, in Baltimore, on her way home.

MISS JULIA BRITTON

A Young Society Lady of Augusta, Georgia.

1515 Estes Street, AUGUSTA, GA., May 16, 1902.

TAKE pleasure in joining the large number of testators who have been cured through the use of Wine of Cardui. It is certainly a very remarkable curative agent, and while it is pleasant to take and mild in action it is very strong and positive in curative ability. Since early womanhood I suffered from extreme nervousness and seemed unusually sensitive to climatic changes. A slight cold or too great heat would upset me and headache and general indisposition would result. My stomach was easily upset and I would frequently have heartburn, sour stomach and the heavy feeling you experience when you have indigestion. I was also irregular and had severe monthly pains, all of which showed me that I was entirely out of harmony with health. I naturally desired a change and doctored for several months, hoping for better health. I was however disappointed to find that the medicine afforded me no relief. I noticed your ad in the street car and I bought a bottle of Wine of Cardui on my

way home and great was my joy to find that within a few days it brought me great relief. My food seemed to digest without trouble, and the headache soon disappeared altogether. I kept using it until I had taken five bottles and felt that I had never invested any money in my life which brought such great returns. Within two months I was like a changed woman. My aches and pains disappeared as if by magic and new life and activity seemed to course through my veins. I began to enjoy our dear life, long walks and exercise as never before. It is indeed gratifying to experience such a remarkable change in body and mind which perfect health brings, and believing that your medicine is well worthy of full confidence and endorsement I am glad to give it both.

Julia Britton

Young women cannot too carefully guard the monthly function. Women as a rule look upon this great function of nature as a trouble instead of a blessing. They seldom consider that it renews the body of poisonous wastes and that a suppressed or a scanty flow is invariably a forerunner of sickness. Because Wine of Cardui perfectly regulates the monthly function hundreds of thousands of women owe their lives to it. Wine of Cardui as a regulator of the monthly function not only purifies the blood but it relieves weak and nervous women of troubles which doctors not only did not cure but do not often diagnose correctly. In thousands of cases of so-called "debility," "nervousness" and "tired, worn out feeling" Wine of Cardui by regulating the menstrual flow, has proven the remedy that was needed. If your doctor is doing you no good, secure a bottle of Wine of Cardui and take it in your home. It will cure you but you will only be one woman among thousands with the same experience. Remember Wine of Cardui cured Miss Britton. Accept no other medicine as a substitute. Give Wine of Cardui a fair trial and health will be yours.

MAN KILLED WAS RICH MERCHANT

Men Struck by Train at Cooper, W. Va., Identified as Samuel Ellison, of Basin Springs.

(Special Dispatch to The Times.) BLUEFIELD, W. VA., November 14.—The man who was killed at Cooper, W. Va., Tuesday night by a freight train was identified yesterday as Samuel Ellison, a wealthy merchant of Basin Springs, Wyoming county. He spent Monday and Tuesday in this city purchasing material for a new dwelling house, and his presence at Cooper at the time of death cannot be explained.

Walter Turner, otherwise known as "Tink," who was shot by Rosa Dean at Pocahontas, Va., Monday night, died yesterday afternoon. The young man was brought to this city yesterday morning and an operation was performed with the hope of locating and extracting the bullet. He died before the operation was completed. A charge of murder was entered against the woman and she will be taken to Tazewell Courthouse to-morrow and incarcerated pending an investigation by the grand jury. There were no witnesses to the shooting, but soon after her arrest the woman admitted to the officers that she did it, and it is thought that this will be sufficient evidence to justify the grand jury in finding an indictment against her for murder.

John Skinner, a negro miner employed at the Arlington colliery, near Welch, was shot through the right side by Frank Brown, another miner, with whom Skinner was engaged in a drunken quarrel. The affair occurred early this morning. The wounded man was taken to the Miners' Hospital, where he is lingering between life and death. Brown is under arrest.

The Lincoln Coal Company has purchased of J. L. Caldwell several hundred acres of coal land on the Guyandotte Valley Railway. The new purchasers will put engineers to work at once, and it is expected that another mine will be opened in the immediate future, and that the same will be equally as important as any of many valuable mines along the line.

J. W. Foyer, a Crozer Company miner, shot himself accidentally last night while handling an "unloaded" 12 calibre revolver. The ball took effect in his breast and a few hours later he died of his injuries.

J. H. Williams, a brakeman on the Pocahontas division, was killed early this morning
